

Newsletter #12
November 2024

[Subscribe](#)

Dear all,

As the year draws to a close, we present in this edition opportunities to strengthen the links between researchers in the alliance through European calls in different topics, as well as a first initiative to create a EU GREEN doctoral community through a "3-minute fame contest" .

We would also like to congratulate all those who participated in the 2024 call, we know and appreciate the efforts that have been made in order to build the proposals. Following the evaluation by the vice rectors for research of the alliance, the laureates will be informed in December.

Best regards,

EU GREEN Research Team

3-minute fame contest - application open !

This contest is a unique opportunity for PhD students of the EU GREEN alliance to showcase their thesis by presenting it in a concise and engaging manner to a diverse audience.
