General EU GREEN objectives (first 4 years)

- 1. Create robust and resilient foundations which will allow EU GREEN to reach a full long-term strategic alignment. This will be achieved by pooling resources, by building common infrastructures and by developing common procedures.**
- 1. Establish a true EU GREEN inter-university campus and build an EU GREEN community of learners, researchers, teachers, administrative staff, fully connected with each other and with our regional ecosystems**
- 1. Embed environmental education and education for sustainable development into all elements of our system (education, research, innovation and entrepreneurship, engagement with society, campus life), with a focus on the 6 EU GREEN research clusters, building transdisciplinary European knowledge teams**

Criteria for choosing pilots for multiple/joint diplomas :

1. Fulfil the general EU GREEN objectives
2. Aligned with Research Clusters
3. Emphasize formative assessment rather than summative assessment
4. Academic staff involved in programmes must have training on active learning methodologies and teaching for sustainability
5. Include collaborative teaching

- *Bachelor in Liberal arts and sciences aligned with sustainability*
- *Education for sustainability (master & PhD)*
- *AI Engineering*
- *Advanced Semiconductor Nanotechnologies*
- *Sustainable Tourism Management & Monitoring*
- *Humanitarian aid & crisis management (with Ukraine)*
- *Interdisciplinary studies in Health and Wellbeing : designing a strategy for innovative and sustainable education programs (PhD)*

Discussion on creating joint programs
